Narula Institute Of Technology

## PROFILE

MERN-stack Full-Stack Web Developer (MCA, 2025) with strong Java and Python fundamentals. Skilled in React.js (frontend), Node.js/Express (backend), and MongoDB. Experienced in building responsive web applications through college projects. Passionate about solving problems and contributing to innovative software solutions.

## EXPERIENCE

- **ROLE-Intern: 2+ months**  
**SENTIENTGEEKS, KOLKATA**
  - Learned and applied C# and SQL Server concepts.
  - Solved real world database problems with SQL server.
  - Enhanced OOPs concepts on C#.
  - Gained hands-on exposure to .NET, SQL Server 2022.

## PROJECTS

- **Ticketflix – Movie & Event Ticket Booking Portal**

- Developed a full-stack ticket booking portal using React.js, Node.js, Express, and MongoDB.
- Implemented features for browsing events, seat selection, and a secure checkout; improved user flow to handle bookings efficiently.
- Integrated payment processing (e.g. Stripe API) and admin dashboard for event/movie management.

- **FoodExpress – Online Food Delivery Platform**

- Built a MERN-stack food ordering site allowing users to browse restaurants and place orders in real time.
- Designed cart and payment modules, and an admin interface for menu/order management.
- Also have restaurant and delivery partner interface for smooth transitioning for an order from user to restaurant to delivery partner to admin.
- Currently working on different aspects of this project to make it even better like implementing Geo-Spatial queries.
